TWELVE ARE INJURED IN TRAIN WRECK

It Is Believed That All Will Recover.

NO PASSENGERS WERE ON TRAIN

The Train Was Just Begining to Get Up Full Speed when the Engine Suddenly Left the Track, Followed by Two Cars.

St. Louis, Feb. 20.—The fast mail train for the southwest on the St. Louis, Iron Mountain and Southern railway, was wrecked presumably by a broken rail at Carondelet, a suburb of St. Louis, early Monday morning.

Twelve men, including the conductor and engineer, are injured, several of them seriously.

The injured men were removed to hospitals, where it is believed all will recover.

The names of those injured are:

Adolph Brennecke, engineer, sprained back, bruised and cut seriously.

Edward Graer, conductor, bruised and internal injuries.

Peter Rafferty, fireman, fractured skull, left arm broken, critical.

Mail Clerks W. C. Rause.

Joseph O'Neill, leg broken.

Lee McLaudlin, internal injuries.

D. Richardson, spine injured.

A. A. Werner, internally.

L. S. Cook, internally.

E. C. Martin.

O. S. Miller.

The train was just getting into full speed when the engine suddenly left the track, followed by two cars.

The engine and one car telescoped and together rolled down a 15-foot embankment. The second car, after running some distance, lodged on the edge of the river Despress. It contained a number of mail clerks and the loss of life would have been general had the car fallen into the river.

The engine ploughed alond the track for some distance before going down the embankment.

The train consisted of mail and express cars, no passengers being carried.

The crash aroused Carondelet citizens and they speedily turned out and assisted in caring for the injured, several of whom were so tightly pinioned in the wreckage that it required much work to release them.

Will Honeymoon in Cuba.

Washington, Feb. 20.—Mrs. and Mrs. Nicholas Longworth will spend a portion of their honeymoon in Cuba. They left "Friendship," the country estate of John McLean, where they went after the wedding, Monday morning, in a large automobile and rode to Alexandria, Va., where they boarded the private car Alysian which was attached to the Washington and Southwestern limited train on the Southern railway, leaving Alexandria at 11:18 a. m. They will go to Tampa, Fla., via Jacksonville, where they will take a boat for Havana, arriving there Thursday morning.

Foreman Killed by Train.

Bainbridge, Ga., Feb. 20.—M. M. Baker, a section foreman for this division of the Georgia, Florida and Alabama railway, was run over and instantly killed about 3 o'clock Sunday morning by eastbound passenger train No. 58 of the Atlantic and Coast Line. Baker's body was horribly mangled, his head being split open and one leg crushed off. He was carried some distance before the train was stopped. AGAIN BEGINS FIGHT FOR LIFE.

Twenty-Five Witnesses Ready to Swear Valet Perjured Himself.

New York, Feb. 20.—Another chapter in the long fight made for life by Albert T. Patrick, convicted murderer of William Marsh Rice, began Monday morning before Recorder Goff, in the court of general sessions when the examination of 25 witnesses on whose affidavits the motion of a new trial was begun.

All these witnesses state Jones, the valet on whose testimony Patrick was convicted, admitted in Texas that he had lied at the trial. These affidavits were procured through the work of John T. Milliken, of St. Louis, a brother-in-law of Patrick. He has also undertaken the expense of the defense.

The affidavits of the doctors are to show that Rice was not killed by chloroform, as alleged by Jones. One of the deponents, Dr. Thomas L. Bennett, will testify that the chloroforming of the aged millionaire in the manner described by Jones at the trial is absolutely impossible.

All of the witnesses will be examined by William K. Olcott, of Patrick's counsel, and by Distret Attorney Jerome personally. Mr. Olcott sad it would probably take the entire week to examine them all.

Episcopal Institute Destroyed by Fire.

Danville, Va., Feb. 20.—The Chatham Episcopal Institue has been destroyed by fire, entailing a loss of $25,000, partially covered by insurance. The building was a three-story frame structure, located in the suburbs of Chatham. Fire broke out in one of the rooms at about 10 o'clock, and the lack of fire protection caused the fire to spread rapidly. About one hundred girls, who were on the lower floor in night dress escaped with their lives. The personal property of over half of the students, and all of the furnishings of the building, were destroyed. Rev. C. O. Pruden is at the head of the institution, which is run under the auspices of the Episcopal church. Provision for the ladies was made in the homes of private families in Chatham and vicinity.

Reward Offered for Lynchers.

Montgomery, Ala., Feb. 20.—Governor W. D. Jelks has offered a reward of $100 each for the capture of the first four lynchers of Bunk Richardson. The negro was taken from Etowah county jail and hanged by a mob of about 25 persons last Sunday morning. He was accused of complicity in the criminal assault and murder of Mrs. Mary Jane Smith, near Gadsden. Two other negroes charged with participating in the crime have been legally executed, and another was sentenced to death, but the penalty was commuted to life imprisonment by the governor.

Killed by a Girl.

Charlotte, N. C., Feb. 20.—H. Y. Stack, aged 25, a flagman on the Southern railway, was shot and instantly killed by a 14-year-old girl named Hannon, at Concord, N. C. Stack came to Concord recently from Birmingham, Ala. In company with another young man, he had been at the house earlier in the night. He returned to get a muffler he had left and was denied admittance. He went to the girl's window and was shot in the breast. The girl, together with a 16-year-old sister and her father, were arrested and placed in jail.

NEW PRESIDENT TAKES THE OATH

M. Fallieres Follows Loubet In France.

FALLIERE'S REPLY INFORMAL

Transmission of Power from Retiring President to New Choice of the People Took Place Without the Slightest Jar.

Paris, Feb. 20.—Clement Armand Fallieres Sunday assumed the duties of president of France, while former President Loubet passed into private life.

The ceremony of the transmission of office took place in the Elysee palace at 4 o'clock in the afternoon, while the crowds that were massed in the surrounding street shouted, "Long live the president," and "Long live Fallieres," and every military garrison in France thundered a salute of 21 guns.

President Loubet, surrounded by the cabinet, the presidents of the senate and chamber of deputies, and the

members of his military house hold, welcomed M. Fallieres, and in a few earnest words committed the executive functions to the new president.

The reply of M. Fallieres was without formality. It was a simple acceptance of the new responsibilities, and an assurance of his best efforts in carrying them out.

M. Fallieres and Loubet both wore evening dress with the broad scarlet sashes of the grand cross of the Legion of Honor across their breasts.

President and Madame Fallieres will take up their residence at the Elysee palace immediately.

Paris remained perfectly calm while the transmission of power was taking place, there being few flags or street decorations and no processions or other spectacular features similar to those seen at an inauguration of a president of the United States. The minister of war gave the soldiers a half holiday with extra wine and their barracks throughout the city were gay with flags, but otherwise the streets presented the usual Sunday aspect.

The chief outward evidence of the event was the showy cavalry escorts for the retiring and incoming presidents, which were composed of cuirassier regiments in shining breastplates and helmets with black plumes.

FIRE DAMAGES HERALD PLANT.

Several Hundreds of Fonts of Type Were Destroyed.

Albany, Ga., Feb. 20.—The plant of the Herald Publishing company was badly damaged by fire Sunday morning. A blaze was discovered issuing from the windows of the composing room at 4 o'clock, and before the fire was under control the plant had been practically put out of commission.

The newspaper and job presses were not damaged beyond what can be repaired in the course of a few days, but hundreds of fonts of job type were destroyed, together with furniture and fixtures which cannot be readily replaced. The linotype machine is out of commission, but type has been ordered, and it is announced that the Herald will be issued as usual.

The loss cannot be accurately estimated, though it will amount to several thousand dollars, fully covered by insurance. The postoffice and a laundry are on the lower floor of the building of which the Herald plant occupies the entire upper floor.

A quantity of water and melted type ran through into the postoffice, where a good deal of mail and the office fixtures were damaged.

Lost Life Attempting Rescue.

Chicago, Feb. 20.—A dispatch to the Record-Herald from Glasgow, Mo., says that in saving her friend from being crushed by a freight engine, Miss Anna Mae Diggs lost her life on the west approach of the Chicago and Alton bridge. Miss Diggs, Miss Louise Arthur and two other young women had walker across the bridge and were nearing the end of the west approach, when they heard a train behind them. All four ran and three got safely off the embankment. But Miss Arthur stumbled and fell on the tracks. Miss Diggs ran to her and threw her from the tracks. At the same instant, the pilot of the locomotive struck the rescuer, killing her instantly.

Hungarian Parliament Dissolved.

Budapest, Feb. 20.—The Hungarian parliament was dissolved Monday morning with the use of force. The floor and corridors of the buildings were cleared by the police. There was no resistance, and no disorder. The members of the coalition party declared that the dissolution was unconstitutional, and it was illegal, and that they will hold a meeting Wednesday in the pairliament building unless prevented by troops, in which case the meeting will be held elsewhere.

Colorado Has Volcano.

Chicago, Feb. 20.—A dispatch to the Record-Herald from Hot Sulphur Springs, Colo., says that Mount Sutton, a lofty promontory three miles from here, has developed into an active volcano, flames and smoke belching from a crevice far up the mountain side. A party of citizens approached as near the crater as they dared, only to be driven back by stifling sulphuric fumes. Alarm is felt here, though up to date there has been little lava emitted.

Starved Woman Left Millions.

New York, Feb. 20.—Bonds and mortgages representing more than $100,000 and more than $10,000 in cash have been found hidden in a house of 1848 street and Morris avenue, lately occupied by Miss Maria Corsa, who died of starvation and exposure on Monday of last week, leaving an estate valued at nearly $1,000,000. The money was hidden in furniture, under carpets and in almost every nook and corner of the house.

Peavey & Co., of Mi[illegible] has been burned to the ground [illegible] its contents, consisting of about 1,000,000 bushels of grain, principally wheat. Conductor Hough and Brakeman Simpson Lose Lives When Passenger Train and Light Engine Meet—A Wrecking Crew Is Hard at Work.

The second section of a passenger train bound for Asheville, and a light engine came together between Swannoa and the Black mountain.

A wrecking train was at once sent from here, and the work of clearing the wreck was pushed rapidly.

No passengers were seriously injured, although a number of them were severely shaken up.

GOOD HEALTH MARKS TRIAL.

Greene and Gaynor Case Enters Its Seventh Week.

Savannah, Ga., Feb. 20.—The seventh week of the trial of Greene and Gaynor in the federal court of this district began Monday.

Progress made during the last week was regarded as fairly rapid, though but three witnesses were examined.

These three witnesses, however, have been regarded as, perhaps, the principal ones in the case, thought it is expected that A. J. Twiggs, of Augusta, Ga., who will be called this week, will probably undergo an examination that will consume quite as much time as that through which Assistant Engineer A. S. Cooper and E. B. Conant were put.

The jurors and all concerned in the case continue in good health, and there is earnest hope of those engaged in it that the trial may be brought to a conclusion.

John A. McCall Is Dead.

New York, Feb. 20.—After a lingering illness, John A. McCall, former president of the New York Life Insurance company, died Sunday at 5:23 o'clock at the Laurel house in Lakewood, N. J. The news of the death was not given out by the family until some time after the end. Then Mr. McCall's son, John C. McCall, briefly announced: "The end has come. My father has passed away." Mr. McCall had been unconscious since about 1 o'clock Sunday morning, except possibly for one brief minute in the afternoon, when his eyes opened and looked into the face of his wife, who was bending over him. He smiled and as he did so his eyes closed again and he remained in the coma until the end.

Large Shortage Shown by Auditors.

Birmingham, Ala., Feb. 20.—Auditors working on the books of the Bessemer Soil Pipe company, at Bessemer, have announced that there is a shortage of at least $5,000, in the books of Secretary-Treasurer G. L. Van Trump, of the company. Mr. Van Trump was recently elected alderman of Bessemer and he disappeared from the city last Tuesday. He came to this city from Pennsylvania, and is prominently connected in Ohio and Kentucky. The Bessemer Soil Pipe company is the property of N. O. Nelson, of St. Louis, and is well known from the fact that it is run on a co-operative basis.

Famous Case Decided.

Washington, Feb. 20.—The famous case of the state of Missouri versus the state of Illinois, involving the right of the city of Chicago to divert its sewage into the Mississippi river through the Chicago drainage canal and the Illinois river, has been decided by the supreme court of the United States in favor of Illinois. Justice Holmes delivered the opinion of the court, which was that Missouri did not prove its case. There was no dissatisfaction.

Pleased With Gainesville.

Hon. E. B. Linnen of Salt Lake City, Utah, inspector of general land offices and offices of surveyor-general of the United States Government, has made his departure, after eight or ten days spent in this city inspecting the affairs of the United States land office.

Colonel Linnen complimented the officials and the clerks of the local office for the excellent and efficient manner in which the affairs of the office are conducted, stating that it was one of the neatest he had ever seen. He also spoke favorably of the city and its people, adding that the people of Gainesville as a whole were the most hospitable lot he had ever had the pleasure of mingling with. He was also deeply impressed with the Bible Conference and attended services regularly while here.

Mr. Foster From Cuba.

Rev. W. C. Foster, pastor of the Baptist church at Alachua, was in the city for a few hours yesterday en route home from Rodman, Putnam county, where he has been to fulfil an appointment. Mr. Foster has recently returned from a trip to Cuba, where he went with several friends from the State convention at Bartow. He is deeply impressed with Havana, which he declares to be one of the prettiest cities he has ever seen. He is preparing a lecture, and on next Sunday evening, at a union service at Alachua, he will tell the congregation of his idea of the Queen of the Antilles as far as he saw it.

HAPPENINGS FROM ARNO.

Cotton Acreage to be Decreased but Other Crops Will be Large.

Arno, Feb. 19.—The weather is fine and everybody busy preparing for the coming crops. Judging from what the farmers say the cotton acreage will be about 25 per cent short of last year's crop, and the oats and hay crops about double that of last year. There will also be an increase in the cane crop.

The prospect for a peach crop was never finer at this season of the year. The earlier varieties have been in bloom nearly three weeks, and are beginning to shed the bloom.

The Stroble school is progressing very satisfactorily under the management of Prof. Joe F. Davis of Marianna.

Mrs. V. J. Henderson and Miss Lillie Henderson, mother and sister of F. P. Henderson, are spending the winter at Arno.

Quite a number of our people will attend the Bible Conference for two or three days this week.

F. P. Henderson and wife expect to attend the Y. P. S. C. E. Convention at Gainesville on the 27th and 28th inst.

Miss Susie May is at Tallahassee attending the Teachers' Normal College.

HIGH SPRINGS HAPPENINGS.

Knights of Pythias Entertained by Rathbone Sisters—Other Notes.

High Springs, Feb. 20.—The Rathbone Sisters entertained the K. of P's Monday evening at a barquet given complimentary to them and in celebration of the forty-second anniversary of the Knights of Pythias.

The hall was well lighted and beautifully decorated in evergreens and the fraternity colors. The decoration scheme, which was skilfully carried out by Messrs. Lally Cloud and Oscar Osteen, consisted of a background of cedar, holly and palms, over which were tastefully arranged the color streamers. These colors draped the tables and entwined the central pillars of the hall. The tables with their snowy drapery, glass and silver, completed a scene which would have satisfied the most artistic taste, while the odor of steaming Mocha, of chicken salad and other good things too numerous to mention appealed to the weaker side of humanity.

The committee, Mesdames Phifer, Sutherland, Holland and Hiers, had been ably seconded by the membership of the Rathbone Lodge in making this entertainment the success it was. Dr. Sutherland made a short but very happy address to the Rathbone Sisters, in which he gave them two good pieces of advice illustrated by rich anecdotes. It was received with applause.

Notes.

Mrs. Maidie Cloud has moved to High Springs from Lake City, and her many friends welcome her back to her old home.

The New Century Club held a called meeting at the residence of Mrs. John Quinlan, where, after the business session, it was entertained by an impromptu program of music and recitation by Misses Hilda Webb and Emma Lou Dunegan, followed by lovely refreshments.

Health of American Women

A Subject Much Discussed at Women's Clubs—The Future of a Country Depends on the Health of Its Women.

At the New York State Assembly of Mothers, a prominent New York doctor told the 500 women present that healthy American women were so rare as to be almost extinct.

This seems to be a sweeping statement of the condition of American women. Yet how many do you know who are perfectly well and do not have some trouble arising from a derangement of the female organism which manifests itself in headaches, backaches, nervousness, that bearing-down feeling, painful or irregular periods, pelvic catarrh, displacement of the female organs, indigestion or sleeplessness? There is a tried and true remedy for all these ailments. Lydia E. Pinkham's Vegetable Compound has restored more American women to health than all other remedies in the world. It regulates, strengthens and cures diseases of the female organism as nothing else can. For thirty years it has been curing the worst forms of female complaints.

Such testimony as the following should be convincing.

Mrs. T. C. Willadsen, of Manning, Ia., writes:

Dear Mrs. Pinkham:—

"I can truly say that you have saved my life and I cannot express my gratitude to you in words. For two years I spent lots of money in doctoring without any benefit for female irregularities and I had given up all hopes of ever being well again, but I was persuaded to try Lydia E. Pinkham's Vegetable Compound and three bottles have restored me to perfect health. Had it not been for you I would have been in my grave to-day."

Miss Mattie Henry, Vice-President of Danville Art Club, Danville, Va., writes;

Dear Mrs. Pinkham:—

"Many years' suffering with female weakness, inflammation and a broken down system made me more anxious to die than to live, but Lydia E. Pinkham's Vegetable Compound has restored my health and I am so grateful for it that I want every suffering woman to know what Lydia E. Pinkham's Vegetable Compound will do for her."

When women are troubled with irregular, suppressed or painful periods, weakness, pelvic catarrh, displacements, that bearing-down feeling, inflammation, backache, bloating (or flatulency), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues, and hopelessness, they should remember there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such troubles. No other medicine in the world has received such unqualified endorsement. No other medicine has such a record of cures of female troubles. Refuse to buy any other medicine, for you need the best.

Mrs. Pinkham invites all sick women to write her for advice. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, her assistant before her decease, and for twenty-five years since her advice has been freely given to sick women. Her advice and medicine have restored thousands to health. Address, Lynn, Mass.

County Judge's Court.

Monday was rule day, but the court of County Judge Mason was not a scene of activity, as has been the case.

The only cause coming on to be heard before the county court was that of the State vs. S. J. Slaughter, who was charged with having sold mortgaged property without consent of the mortgagee.

After hearing the evidence and argument in the case, the defendant was placed under a bond of $150 for his appearance before the next session of the grand jury, which was promptly furnished and the defendant permitted to return to his home.

Justice Colman's Court.

Columbus Berry was arraigned in Justice Colman's court Tuesday morning, having been charged with embezzlement. The prosecutor in the case was E. H. Waters, who stated to the court that the defendant borrowed from him a kalsomining brush valued at $1.50 and when asked to return same repeatedly failed to do so.

The defendant must have been guilty as charged, as he was willing enough to receive his discharge with the agreement that he was to return the brush and pay the costs of the court—

And he did.

PRIMARY DATES.

D. U. Fletcher, chairman of the State Democratic Executive Committee, has issued the call for the committee to meet in Jacksonville, Saturday, February 24th, to fix the dates for holding the primary elections for nominations of the State and county officers.

At this meeting of the committee the dates will be fixed for holding the primary elections for the nomination of State and county officers, and the rules for conducting the same will also be decided upon.

This will be the first meeting of the committee for more than a year. The last meeting was for the purpose of agreeing upon proposed amendments to the primary election law.

The State primary election law requires that at least thirty days' notice shall be given in some newspaper or by posting in each ward or precinct of the holding of such election for the nomination of candidates.

The calling of the committee at this time is taken by some politicians to mean early primaries, but this is not positive, as the committee, it is thought by many, will not call them earlier than June 1st.

The primary two years ago was held very early, the first on May 10th and second on June 7th. These dates were opposed by many newspapers, who claimed that they were very inconvenient to the farmers of the State.

This coming meeting, however, will have the tendency to bring out the candidates for county offices, State senators and representatives, railroad commissioners, etc.

The railroads of Ohio, it is said, will put on a 2-cent service because the Legislature has reduced the fare to two cents. The railroads of Ohio can better afford to carry passengers for two cents a mile than the Florida roads for three cents, and some of the Ohio roads have been giving a 2-cent service for several years.

Outwest, the magazine published at Los Angeles and San Francisco, Cal., has a very elaborate write-up of Arizona in the March number, illustrated with handsome half-tone cuts. It is very interesting reading and similar work is what we need in Florida.

Australia has adopted a system of drying milk and selling it as a powder. Some of the milk we have seen would take a long time to dry, and a good quality of chalk powder would be the product.

It is said that Dr. Osler's mother is 100 years old, and yet the Doctor has not the courage to attempt to administer the necessary anaesthetic to put her out of the way.

The Waldo News is one of the best local papers in the State, and has as much good local news as some of the papers twice its size.

No wonder Hon. Nicholas Longworth is happy! His wife had 27 hats before the marriage vow was solemnized.

Jacksonville is prosperous and everybody in that city is wearing diamonds—the Barrios brand.

FAMINE IN JAPAN.

The condition of Northern Japan appeals to the sympathy of the whole civilized world. It is usually one of the finest granaries of the nation, but for a month or more letters from interested foreigners have told of the extreme destitution in the three Northern provinces of Fukushima, Iwate and Miyagi. More than one-third of the population of three millions are struggling desperately to keep soul and body together. In the early autumn of last year, it was evident that the crops had failed, but this news was carefully concealed while the war went on, lest it should give the enemy renewed courage and prove disadvantageous to the interests of Japan. Now, however, the necessity for silence as to the famine no longer exists. The Government officials frankly admit that conditions in the provinces named are so serious as to demand not only all the aid the Government can render, but that outside aid will be gladly welcomed.

In Fukushima the horror of the calamity may be gathered from the statistics, which show that 300,000 unhappy people are seeking to assuage the pangs of hunger by eating little cakes made of seventy-five per cent chopped straw and twenty-five per cent foreign rice, no domestic rice being available. With a population of over a million, the rice crop is less than one-fourth of its usual yield, and in some districts it is only six per cent of what the farmers reasonably looked for.

Assistance is called for from the people of the United States, and funds should be sent to the Japan Relief Fund, under the auspices of The Christian Herald, 93 to 114 Bible House, New York City.

THREE BILLS.

The rate bill, the shipping bill and the pure food bill, in all of which the people are vitally interested, are all of them hanging fire, with the prospect of being modified just enough to rob each of them of any beneficial features. The fight on the rate bill is being made ostensibly for the inclusion of the right of review by the courts of the findings of the Commission. This right of review would naturally obtain, as any citizen has a right to have recourse to the courts. But it is a good thing to fight for its inclusion in the bill for two reasons: In the first place it makes the appeal a natural proceeding on the part of the road under the working of the act. They would appeal anyhow in the first few cases, but with this provision in the bill they will be legally justified in fighting each individual case and with the amount of money and legal talent at their disposal, the roads would naturally be able to wear out any of the smaller shippers and make the findings of the Commission absolutely of no effect. Then the "right of review" provision is convenient, as it enables the Senate to make a longer fight and will help it to exact the last measure of compromise from the House.

There are some men who receive clemency at the hands of the law and pardoning board who have manhood enough to appreciate it, while others are deserving of all the punishment their crimes will warrant. In the case of Edward Alvarez, who was permitted to return to the State to attend the funeral of his wife, and then proceeded to get drunk and tried to shoot some one, the action of Judge Call of Duval county was just what he deserved when he returned Alvarez to prison. To show mercy in such cases is simply a waste of sentiment or feeling sympathy in the case.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years it was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Scienc has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally, in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer $100 for any case it fails to cure. Send for circular and testimonials.

THE POWER OF STEAM.

Many May See But It Takes Genius to Realize.

When James Watt saw the steam causing the kettle lid to jump up and down he said "There must be power in that steam that it can lift such a weight."

There was.

Millions prior to him had seen the same phenomenon and regarded it as an unexplained mystery.

MELROSE MERRIMENT.

St. Valentine Party—A Wedding—Social and Personal News Items.

Melrose, February 19.—St. Valentine's Day was celebrated in Melrose by a most delightful "Heart Party," given at the Ladies' Hall by Mrs. Samuel Billam, Mrs. Harrison Toiles, Mrs. Clarissa Schneller and Miss Schneller. Nearly fifty guests were present. The hall was most effectively and uniquely decorated with quantities of palmettoes and innumerable red hearts of all styles, and the punch bowl stood in a bower of plum blossoms, the taste and skill of Miss Schneller and Miss Comby being evident in the beautiful result. The nine tables were distinguished by nine different kinds of flowers. Trays of flowers were handed around. Five guests seated themselves at the tables to match the flowers they had taken. Each guest was given a dainty little heart-shaped pin cushion to keep the score. At the end of each game a little bunch of pins was handed to each table containing one black pin and thirteen white ones. Six very pretty prizes rewarded the winners of the game, after which delicious refreshments were served and the evening wound up with a very enjoyable little dance.

F. M. Yearwood of the Melrose Manufacturing Company has purchased the corner lot fronting on Quail and Park streets and expects to put up a cottage. He has already commenced to beautify the lot by setting out a large palmetto tree, with others to follow.

Man Past Sixty in Danger.

More than half mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of the prostrate gland. This is both painful and dangerous and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rock Port, Mo., writes: "I suffered with enlarged prostrate gland and kidney trouble for years and after taking two bottles of Foley's Kidney Cure I feel better than I have for 20 years, although I am now 91 years old." CHARTER ASKED FOR NEW ROAD

Thomasville Business Men Have Made Such an Application.

Thomasville, Ga., Feb. 20.—Ten of the best business men in Thomasville have entered application for the charter for a railroad running from Thomasville to St. Joseph's bay, on the gulf of Mexico. The distance the proposed road would traverse is 120 miles, and the name under which it will operate is the Thomasville and Gulf.

W. C. Snodgrass, a prominent lawyer and promoter of Thomasville, is at the head of the plan, and his fellow petitioners are J. E. Evans, Lee Neel, Ralph Neel, M. M. Cooper, W. I. McIntyre, S. A. Roddenberry, P. D. Dismuke, W. H. Mitchell and A. T. Snodgrass.

Though there is no connection between the two, it will be in effect an extension of the Atlantic and Birmingham in the direction that road has so long looked. It has been in the mind of the Atlantic and Birmingham to extend to the gulf from Thomasville for several years, and it had been thought that as soon as their line to Birmingham was completed, this extension would be taken up. The territory to be traversed is one of the richest agricultural districts in the south, and includes the famous tobacco districts of Decatur county.

I had tried for years to find relief, having tried all remedies I could hear of, besides a number of doctors.
